## Grants Online Overview

---

### Overview

The National Oceanic and Atmospheric Administration (NOAA) offers a variety of competitive and non-competitive grants and Awards to various communities including States, Universities, and non-profit organizations. Prior to the advent of Grants Online, the processing of grants was a paper-based task involving time-consuming human interactions and program policies. The process of awarding grants to the most qualified applicant for a competitive Award, and to qualified designated applicants of non-competitive Awards, was also largely paper-driven.

As part of its strategy to move scientifically and operationally into the 21<sup>st</sup> century, Grants Online was developed. Grants Online is an E-Government initiative to create an automated tool that will support the grants management lifecycle activities. Grants Online significantly streamlines and unifies grants processing throughout all of NOAA, allowing the agency to increase efficiencies related to mission goals.

Grants Online is developed to answer several issues that occur during the Award processing including:

- Reduce or eliminate paper forms for application.
- Provide an interface with Grants.gov to ensure applicants can apply for grants electronically.
- Reduce the processing time by incorporating workflows between Federal Program Officers (FPO), Grants Management Division (GMD), Financial Assistance Legal Division (FALD), and Grantees.
- Serve the NOAA community in its efforts to meet its mission goals.

Grants Online allows Grantees to:

- Accept Awards electronically.
- Manage user roles for individuals within their organization.
- Submit post – Award action requests and Performance Progress Reports
- Correspond with your NOAA Program Officer and Grant Specialist.

**Module Objectives** The Managing Recipient Users module will review the following objectives:

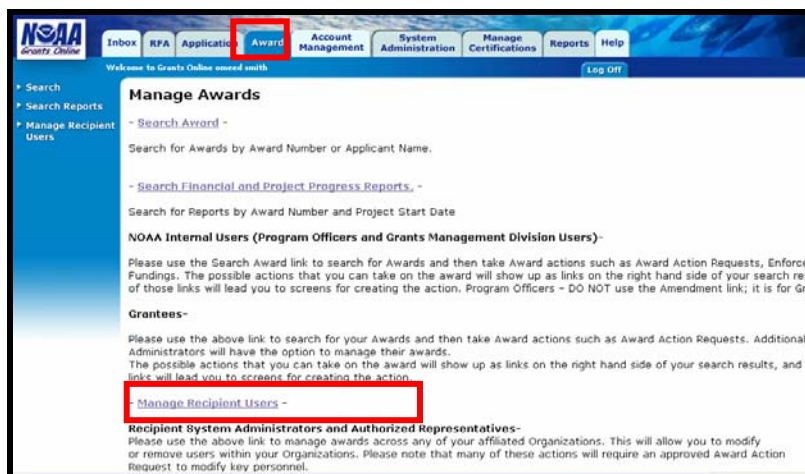

- Managing Recipient Users
- Editing User Profiles
- Adding New Users
- User Roles

### Managing Recipient Users

---

The **Manage Recipient Users** link allows Recipient Authorized Representatives and System Administrators to view and edit user roles for your organization. The **Manage Recipient Users** link also allows Recipient Authorized Representatives and System Administrators to reset passwords and unlock accounts for users within their organization. Users with the role of Principal Investigators and Key Personnel do not have access to the **Manage Recipient Users** link.

1. Click on the **Award** tab.
2. Click on the **Manage Recipient Users** link to access recipient profiles.

3. Select your organization from the drop-down menu followed by the **Refresh** button.
4. The following columns are displayed on the *Manage Recipients* screen:
  - **Name:** This column displays the name of the individual, with the last name first.

- **Phone:** This column displays the phone number of the individual.
- **Action:** The first action column displays the **Manage Award Access** link. This link allows System Administrators and Recipient Authorized Representatives to view/edit the current roles for each user as well as disassociate a user from the organization.
- **Action:** The second action column displays the **Edit Profile** link. This link allows System Administrators and Recipient Authorized Representatives to view users account information such as their name, address, email, and phone number. This link also allows System Administrators and Recipient Authorized Representatives to reset passwords and unlock accounts.
- **Has a Recipient Role:** If **Yes** is displayed in this column, the individual has a role in Grants Online. If **No** is displayed in this column, the individual doesn't have a role in Grants Online. Please note when a user is disassociated from your organization in Grants Online, all user roles are removed and **No** is automatically displayed in this column.
- **Last Disassociated on:** This column displays the last date a user was disassociated from your organization in Grants Online. Please note once a user is disassociated from your organization, all user roles are permanently removed. The System Administrator or the Recipient Authorized Representative must create a new account for the individual to re-activate the account. If **N/A** is displayed in this column, the user has not been disassociated from your organization.
- **User Name:** If the individual has a username it will be displayed in this column. If the user does not have a username, **None** will be displayed.

For the purposes of this manual we will select the **Manage Award Access** link.

The chart below details the various Grantee roles in Grants Online.

Recipient Authorized Representative	<b>Recipient Authorized Official</b> users are individuals with signature authority who sign official grant documents such as an SF-424 (application), or countersigns an Award document such as a CD-450 (new Award) or CD-451 (amendment). More than one person can have this role at any organization; however on each Award one person will be designated the primary "Authorized Representative."
